

Fabric Print & Reverse Visibility Guide

About This Guide

This presentation showcases front and reverse print visibility across a curated range of fabrics used in reactive digital textile printing. Each fabric behaves differently depending on weave, composition, transparency, and surface texture.

The purpose of this guide is to help brands, designers, and buyers select the ideal fabric base for their collections.

Machine Hem

MACHINE HEM (BABY HEM)

The edges are folded once and stitched with a small, neat seam, creating a clean finish with a delicate baby hem.

Close-up of the machine hem (baby hem)

Machine Hem Notes

- Clean folded edge finish created using precision stitching
- Provides a refined and durable luxury finish
- Enhances fabric structure while maintaining elegant drape
- Suitable for lightweight and medium-weight fabrics

Frayed / Open Edges

FRAYED / OPEN EDGES

The edges are left open and lightly frayed, creating a soft, relaxed finish with a delicate texture.

Close-up of
frayed / open edge

Frayed Edges Notes

- Relaxed edge finish created by leaving fabric ends naturally open
- Soft fringe detailing adds an artisanal luxury aesthetic
- Creates fluid movement and a lightweight elegant look
- Luxury print performance
- Popular for contemporary, bohemian, and premium scarf collections

Hand Rolled Edges

HAND ROLLED EDGES

The edges are carefully hand rolled and stitched, creating a soft, rounded finish with a beautiful drape.

Close-up of the hand rolled edge

Hand Rolled Notes

- Carefully hand rolled and stitched by skilled artisans
- Creates a soft rounded edge with an elegant luxury finish
- Delicate craftsmanship inspired by traditional scarf making techniques
- Enhances the fluid drape and movement of the fabric
- Each edge carries subtle natural variations unique to hand finishing
- Ideal for premium silk and lightweight luxury fabrics

Silk Twill (12 momme)

SILK TWILL

FRONT SIDE

BACK SIDE

Fabric Notes

- Refined twill weave with a soft luxurious feel
- Excellent print sharpness and color vibrancy
- Elegant drape with a smooth silk texture
- Durable weave with premium finish quality
- Ideal for luxury scarves and fashion accessories

Mulberry Silk Satin

MULBERRY SILK SATIN

FRONT SIDE
